The impact of healthcare reform on businesses is quickly becoming a major topic of discussion. These issues can affect business owners of all sizes and their finances. That's why we've invited the American Health Lawyers Association to provide you with timely, relevant information to help address your questions and concerns about healthcare reform.

What Every Business Should Know About Healthcare Reform.

During this unique webinar, you will receive practical guidance on the Patient Protection and Affordable Care Act of 2010. Some of the legislation's provisions will add cost and complexity, while others may provide tax benefits to qualifying business owners. Join a panel of Attorneys who specialize in health law as they present on the critical tax benefit and cost implications of federal healthcare reform for business owners across the country.

After so many months of hearing about this complex new healthcare law, this is your opportunity to ask questions of healthcare reform experts and hear other business owners' concerns. If you want information about whether the business tax credit will help your business provide health insurance coverage to your employees and about other essential health benefit questions, please plan on attending this important educational session.

**To take advantage of this educational webinar, participants will need Internet access and a phone line.*

The seminar and/or webinar and materials that you will view were prepared for general information purposes only by the American Health Lawyers Association and are not intended as legal, tax or accounting advice or as recommendations to engage in any specific transaction, including with respect to any securities of PNC, and do not purport to be comprehensive.
